

1. Lift the faceplate off the mounting plate.

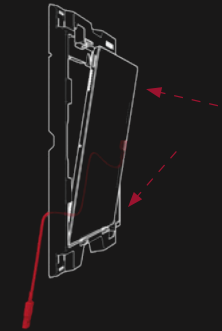

2. Drill pilot holes to assist and drill a hole for your charging cable to feed through.

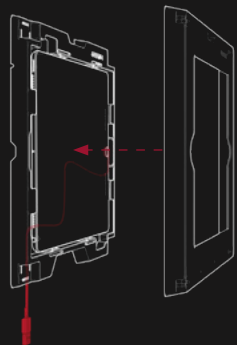

3. Screw the mounting plate to your surface.

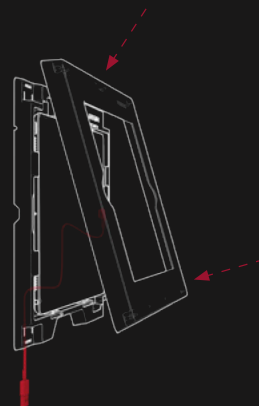

4. Feed the charging cable through the pre-drilled hole prior to inserting the iPad.

5. Plug in charging cable and place iPad in the mounting plate at the base first and then push into position.

6. Place the faceplate on the mounting plate until secured by the magnets. To remove, simply lift the faceplate from the magnetized mounting plate.

7. If you have purchased the Lock Add On, attach the faceplate to the hook at the top of the mounting plate and then press the bottom until the lock clicks into position.

8. To unlock, hold the magnetized key under the faceplate and slowly remove the faceplate from the base.
