BOSSTAB

Dock for Square Reader.

The solution to secure your Square Reader for contactless and chip in position on your counter.

Designed for durability.

We have designed the Dock for Square Reader with durability in mind, including a molded silicone base for extra grip. The dock also features a weighted zinc base to assist with dip payments.

Made for Square™.

The Dock for Square Reader has been custom designed in collaboration with Square™ to work perfectly with the Square Reader for contactless and chip.

Square reader for contactless and chip not included.
